Facade Specialists

About Us

At Archiclad, we specialise in the design, fabrication, and installation of aluminium and glass façade systems.

Our services include:

- Aluminium windows and doors: Available in insulated and non-insulated profiles.
- Aluminium sliding elements: Insulated and non-insulated options.
- Aluminium curtain walls: Stick façade, semi-unitized, and unitized structures with aluminium capping and various silicone glazing options.
- Aluminium skylight elements: Fixed glazing and operable attic windows.
- Aluminium frames for safety and security: Fire-resistant, bullet-proof, and bomb-blast resistant options.
- Aluminium Brise Soleil: Fixed and movable structures.
- Aluminium entrance frames: Including automatic sliding doors, revolving doors, side-hung doors, panic exit doors, and folding structures.
- Complementary items: Metal balustrades, fly-screens, ventilation units, grill and louvre structures, and shutters.
- Glass structures: Glass facades, doors, balustrades, and canopies.
- Metal panel sheet cladding: Including aluminium composite panels and solid metal sheets.
